

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE
Transcriber's Office

February 17, 2000 LB 505, 1436

evaluation piece in it and the evaluation piece would then make recommendations as to how the program is working. It also expands the committee to include a public health representative, a health teacher, and students from each of the four school size categories in the bill. It recognizes that the campaign can go statewide. That's basically what the amendments do. When we left...ended the day, we were really...the discussion seemed to be centering around taking...funding of it comes from the interest off the Tobacco Trust Fund. I had said when the bill would be enacted there would be approximately, I believe, it was \$4 million in that trust fund. This would actually take \$500,000 per year. Senator Landis and I had both indicated that we saw this...these as stand-alone issues as far as LB 505 and LB 1436, and then I believe that some people had indicated they thought we should spend more money rather than the \$500,000. I believe at this point the other important thing I thought that I had indicated and once again I would announce that we have the video with the ads from Florida where the kids were very successful in helping to implement a statewide campaign and, in one year, they brought the reduction down by 20 percent for teens smoking. That...this bill is fashioned a great deal after those Florida ads, and I would hope that it would have the very same success with teens here. I think, generally, everyone who has spoken on the bill agrees on one thing--we all want to do whatever we can to prevent teen smoking. The, as I said, the...I think where we ended up was the disagreement on how we may fund the program. And with that, Mr. Speaker, I hope that was brief enough. Mr. President, sorry.

PRESIDENT MAURSTAD: Thank you, Senator Bohlke. For discussion on the adoption of the committee amendments to LB 1436, Senator Smith.

SENATOR SMITH: Thank you, Mr. President, members. It's been interesting listening to this debate starting yesterday, and I think it's important to note that just when we think things might not be as political, they are indeed the opposite. And I want to point out that it is my opinion, based on correspondence that I have received, that to assume that the...the Excellence in Health Care Council would fund this program, I think it wouldn't happen. The Chair of the council is also the President of the Medical Association, who is vehemently opposed to
